

AMERICAN RED CROSS

Sunday

Dear Mother;

Received your letter yesterday and thanks. It seems like a very quick service compared with the weeks formerly needed.

As yet I have nothing to report. You must understand that the delay means nothing but just is evidence that the Army medical takes its jolly time. However I myself am in no rush, having no place to go in particular anywya. Each day or so I have a test made on me and tomorrow I am going to have my teeth tended to. I also have had a check up on my sinus although that is not what I am in here for. I suppose I will be out in another week or so.

But anyway the thing is not serious and I might as well be here as China.

Today I slept all day. Yesterday I spent reading a book, and taking a shower. Nothing more, but my demands are few and simple.

I hope you have an enjoyable time on your vacation. Don't bother about me. I don't think I will get any more time off as they don't give sick leaves any more. It was found that the boys came back from their leaves more tired and sick than when they left. Such is life.

Enjoy yourself and lots of love,  
Fred

PS. I would like the slippers. Nothing more.
