

Sunday

Dear Mother,

Well, here I am, after three days in the Army all well and happy. I haven't had time to write before. Perhaps you haven't even received the card I sent Friday. I am not at all certain as to the speed of the mail.

I will start at the beginning — Everything went fine in Boston. We stayed with Mrs. Nielsen. Thursday we went to the Army about 10 A.M. Something went wrong and only one truck came to get us. Those of us that had already had the physical exam waited for the second truck. Jim went in the first and I haven't seen him since. If you know what he is please let me know. Well the second truck came about 4:30

There is of course all kinds. There will many  
visitors here this afternoon.

Consequently I am writing to you and going to  
bed about nine. It's funny but being out in  
the car and walking around makes you sleepy  
and nerveless at 6.15 demands are being laid  
down.

I'll write more later about people in camp.

So for I haven't really done anything.

Tomorrow I report for work at the headquarters  
office.

There are a few things I would like sent  
me - if you will - for room as possible -

1. Eggs both trays - the old green one
2. Cleaning fluid - "Energine"
3. Sewing kit: just some needles & dark brown
4. Supply bag - blue one I think is in attic - don't look  
too hard or buy one.

5. Shoe brush & cloth which is in the green room  
or small cupboard.

6. Small bottle of iodine & tube of vasoline (small tube)

Lots of love to all!

(P.S.) Good.
