From: J. B. B.

Subject: your 2 letters rec'd last night -

Dear Momo - Will just scratch off a fast note to you - to send on your mail which I have received forwarded from Ft. Lauderdale - including the last letter I wrote you. Sorry you didn't get it sooner.

I called Fred this morning but he was out. Donald told me you & Cap had talked with Fred on the phone yesterday - so I guess Fred has more recent news of your plans even than you gave me.

I will no doubt talk with him on the phone during the weekend, but doubt if I'll be going out there. Am planning to shop tomorrow - for me &

Sunday Afternoon  
March 5, 1950

Dearest Moms:

I meant to write to you before this because I have two letters from you to acknowledge. I was really going to do it Friday night after I got your second letter with request to write "as soon as you receive this letter" and I was going to do it, but was simply so sleepy I couldn't do anything - so, now it is Sunday. Hope you will receive this before you leave Bahia-Mar.

To go backwards, Fred phoned yesterday morning and as a result I took the 11 AM train out for the day. Had a very nice day with them all. It was a beautiful clear sunny day, cold but just nice. They are all just fine. Peggy gets pretty tired, I guess, for she admitted it yesterday and she generally says she is fine, but otherwise she is OK. Little Maggie J. had changed so since I last saw her 3 weeks ago. She now weighs 8 lbs. 9 oz. and is in fine health. She got her first solid food for supper last night - a tiny bit of pablum and bannana - imagine, at the age of 4 weeks. She liked it, tho. She is so little and cute and cuddly. She is a fine looking baby, altho I don't think she is quite as good-looking as Susan was - ~~xxxxxxx~~ but she will change all the time now. Susan was just fine. Her eye was completely cleared up, due to some ointment they have been puttin on it and they are hoping it will remain that way and won't need operating on. Chances look good now that she won't. She has the most beautiful big blue eyes. Her hair doesn't grow and is still just fuzz and it has lost its light color, but will come out all right, I guess. I saw the darling little yellow dress you sent and it is sweet. She didn't have it on but will be dressed up in it when you come. Peggy said she has written to you but it is hard to get letters mailed, so don't know when you will get it.

Bill Maxon dropped in in the afternoon so Peg, Suse and I went over to the Maxon's for a short visit. Dr. Higgins was there when we got back. After he left, Fred did a bit of marketing, we had supper, watched television and I took a 10 PM train home. Last night Peg was going to start breaking the baby of the 2 AM feeding. They say it will take 2 or 3 nights, she will wake up and cry, but not get a bottle and so should train herself to sleep through. They seem to be more desirous of working out a better feeding schedule with this one than with Susan - which is all to the good. The baby is very good and so far wakes up only at feeding times.

We 3 went to church this morning and doing odd things such as this and washing and ironing the rest of today. It is another beautiful day, warmer than it has been. We have had some really cold days the past 2 weeks. Probably when you wrote on March 1 with 90 degree temperature was one of the days we had it 10-20, with a cold wind, in addition.

Thanks so much for the pretty shells. They were all broken but for one tiny white one which "big" Susan has kept, as little Susan couldn't manage anything that small.

The kids never did receive their fruit, as Fred says he wrote you recently. Too bad.

Am glad you and Bobby get along well and that you are having so many pleasant moments on your vacation. Nice to have been able to see Nellie Green, as you seemed to have missed seeing so many others - like Elsie and Mrs. Dwight.

The card you sent of Bahia-Mar Yacht Basin surely looks as though it were nice there. Will think of you leaving there sometime this coming week, and arriving in New York any time you do arrive. I know home will look very good to you, but am so glad you did this this year, as you will have lots to think back upon.

My new job is going better all the time. I was hired to get letters answered and by this past Friday all the back, and current letters were answered, so I feel pretty good about it. As I probably told you, this drive for funds is being conducted across the country in 12 different sections, and the head of each of these sections is coming to New York this weekend for a 2-day conference, Monday and Tuesday of this coming week. I am going to the meetings and quite thrilled with the idea. It will give me a wonderful over-all knowledge of what goes on. Each regional director will make a report and the problems will be discussed. There will be 18 men there and 4 women, including yours truly! The meetings are going to be held at the Williams College Club on 39th street between Madison and Park - from 9 to 12:30 and 2 to 5. It will be tiring, sitting there all day for two days, but interesting, I believe.

I had dinner last Tuesday with Marjorie Irwin, as I wrote you I probably would. We had a nice time. Helen & my French classes are coming along fine and we have lots of fun in them and enjoy it a lot - every Thursday night we go - from 8 to 10.

Guess that brings us up to date, dear, so I will close for this time and wait for a new address for you in your next letter to me before I write again. Hope you can get a nice accommodation to NY and have a pleasant trip. It will be wonderful to see you again, dear!

All love,

Julia.

Please give my  
love to the  
Captain!
