

CAMP MYSTIC  
MYSTIC, CONN.

Sunday Aug. 7, 1927

Dear Mother,

This morning I got a nice letter from Tee, telling about a prehistoric cave in Spain, where they are. She sent me some pressed leaves, too. Now I'm waiting for a letter from you.

Last night was the night of the Indian Masque, and it was perfectly lovely. Mrs. Akeley said before assembly this morning, that it was the best the camp had ever given. Am sorry you could not have seen it, but I guess you'd rather see something I'm in. I'm in the dancing recital that is this Saturday, and I love to have you all come down.

The announcement I'm sending you, Mrs. Whaley gave to all the girls <sup>to</sup> send to their parents and a friend. I don't know who to send it to and ask you to give it to someone who you'd think would be interested.

After supper we're all going for a sail in the "Northern Light". I took the first pictures today of some of the girls. After they are developed I'll send them to you.

Love of course  
Guthrie.
