Tuesday

Dear Mother;

I sent a telgram Sunday telling of the new arrival.

On Saturday afternoon Peg took another dose of castor oil and nothing happened until two o'clock Sunday morning. You called Saturday night and we had nothing to report. However at two she woke up and didn't feel good. About two-thirty, we called the doctor and he said to go to the hospital. We arrived there a little after three. Peggy still didn't want to go very much and as last time thought she was going for an inspection and didn't bring her suitcase. We made it just in time though as we weren't there more than a few minutes before her water broke. I'm glad it didn't happen in the car. She was in labor only about a half hour and the baby was born at 4:05. So all in all it took two hours which is quite quickly.

The little girl weighed seven pounds-ten and is healthy. She looks like Susan although Peggy thinks she will have dark eyes and maybe dark hair. Her features are even and her head is good shaped. She is nearly bald. Peggy is well and having a rest until Friday when she comes home. The hospital is very good, even nicer than where I was and the food, service and everything else is ok. I see her every night before I go home.

Please find all the mail which has arrived for you within the last few days. I cannot say what is in each envelope and don't know if your tax statement has been forwarded or not. If you have not received it by now perhaps you better contact the bank or somebody in Holyoke.

Now that the big event is over, I feel much relieved. I was worried about the Rh blood condition but so far there has been no trouble along that line. It will be quite a house full but Susy will help?

Hope you are having a good time and seeing lots of Florida. Will be glad to show you our addition when you come back. We think the name will be Margaret Julia but haven't set it for sure.

Love to you and Cap,
