

There are ninety and nine who live and die
 In want and hunger and cold
 That one may live in luxury
 And be wrapped in a silken fold
 The ninety and nine in hovels bare
 The one in a palace with riches rare
 And the one owns cities and houses and land
 And the ninety and nine have empty hands

Farmer's Alliance, 1889

Who are the oppressors? The few: the king, the capitalist and a handful of other overseers and superintendents. Who are the oppressed? The many: the nations of the earth; the valuable personages; the workers; they that make the bread that the soft-handed and idle eat. Why is it right that there is not a fairer division of the spoil all around? Because laws and constitutions have ordered otherwise. Then it follows that laws and constitutions should change around and say there shall be more nearly equal division.

BREAKTHRU BANNED

BREAKTHRU members requested a hearing before the Holyoke School Committee concerning the selling of this paper in the city's Public Schools. We were granted the request and on January 19, 1970 we were off to the School Department on Suffolk St.

We entered the building five minutes late. This tardiness prompted them to begin a search for us, (maybe they thought we were scared or something). The thing was - we had to get some available issues of BREAKTHRU, gathering some no. 5 we were five minutes late. WE entered the room where the High School Committee sat.

They had a seating arrangement planned. As soon as we sat down Dr. Kelly demanded to know the names of my companions. Nervously I stammered, Miss Fitzpatrick and Steve Makowski. We're from HCC and Steve is from the High School."

The room had an atmosphere of an inquisition and some of the questions thrown at us were, quite often redundant. A Mr. Gladu came out with a good one, as quoted from the Transcript, "after busily reading a BREAKTHRU", Gladu remarked, "all I see here is against the system". But we must interject here - if Mr. Gladu was busily reading the paper he obviously did not hear our answers to questions and he obviously did not read the paper to well. If you bought issue no. 5 you will notice that on the cover there is a sign STOP WAR and a story dealing with the peace march in Washington. The story was written by a pacifist. This article covered most of the back page. We had two letters. A few quotes, our editorial congratulating HHS for coming out of the dark ages, and the Black Panther 10 Point Program, which Gladu got very up tight over.

Another interesting point that we would like to bring out is the position Dr. Kelly took. All thru the half hour session she kept asking if "Dr. Frost, (the president of Holyoke Community College), approved of the paper," "did he know of it's existence?" "was he allowing us to sell it at HCC?" "did we speak to him about the paper?". She kept harping on that view point all nite long. DOES she think we need Frost's approval to publish it?

AGAWAM J-H-S-

Feb. 5 at Agawam High School three students were excluded from school. No reason was given, thus violating federal laws stating that when a student is expelled from school, the school must give a written statement including the charges, and a summary of the evidence.

The Friday prior to this there was a leaflet distributed in the school. There was a mass search by the administrators to find the writers of this leaflet. The search lead nowhere, for the mass of the student body wrote it. yet the blame of the leaflet was placed

Federal courts in Wisconsin, Illinois, Massachusetts, Indiana and Alabama have declared that students cannot be excluded from school merely on the bases of their hair length.

The rash of favorable decisions in CLU (Civil Liberties Union) "long hair" cases comes after several years of unsuccessful efforts to convince schools and courts that long hair is a form of expression, protected by constitutional guarantees of freedom of speech and privacy.

The Wisconsin decision is presently being appealed by school officials. A favorable ruling there would affect many other pending cases.

In argument before the Circuit Court in October, Wisconsin CLU Attorney Sander Karp argued the William Bay short hair requirement is "discipline purely for the sake of discipline...the first step on the road to absolute conformity."

editorial

THE PEOPLE of Holyoke will face a decision of great importance when and if the licence of the STRAND is revoked. We are faced here with freedom of expression and individual right of viewing what ever one likes. We do not think that the world will drop if these movies are taken away. Most of them deal with one topic-sensationalism. But we must defend the right to show them and the right of anyone to view them. If the policemen who started this get their way the next step will be to set up rules, that will be enforced, telling us what to wear, eat and who knows what! 1984?????

Mr. Nixon has done it again! He tells us that he is doing us a favor by vetoing the Health, Education and Welfare Bill. He says that by doing that he is helping to stop inflation. He says that we must stop needless spending. But it's allright to spend billions every year surpassing the people of So. Vietnam through the form of Government there. MR. NIXON doesn't care about the sick, ageing, the poor, the hungry, the uneducated, the oppressed. All he cares about is pleasing the people who put him in office - the BIG businessman.

INFLATION IS everyones problem. But have you noticed that all tactics to stop it are directed toward the middle class. The people with all the money aren't doing a thing. They can do something more forceful. But why should they. If they can get the middle-class to do it why should the give up any of their spending.

If all the people in Springfield, who say that nothing can be done about Bay State West and the Civic Center, sat in at city hall - something would happen.

HHS students think that because the dress code has been changed everything is all right. WAKE UP!

HAIR

Here, as in other cases, the student's grooming did not disturb the school's "discipline, decorum or learning atmosphere," the CLU contends. The school therefore had no business interfering in an "intimately personal matter."

In declaring the hair ban unconstitutional, the Federal District Court had stated, "It is time to broaden the constitutional community by including within its protection younger people whose claim to dignity matches that of their elders."

The court continued, "So far as education of young people in obedience is concerned, it is important for them to appreciate the present vitality of our proud tradition that although we respect government in the exercise of its constitutional powers, we jealously guard our freedom from its attempts to exercise unconstitutional powers."

The Federal District Court in Boston ordered a Marlboro student's suspension, voided and wiped from his record, saying there was no reason for suspension "except possibly the principle's personal prejudice." Citing Heraclitus, the Court observed that "from different tones comes the best tune." Attorney Daniel Levenson represented the boy for the CLU of Massachusetts.

BREAKTHRU...

Everytime the word Transcript was mentioned they broke out in smiles as if to suggest that they knew something we did not.

We must now resolve to our critique of the T-T article. They did not mention that this paper first saw the light last year at the High School under the name ORACKE. Maybe the School Committee are a little embarrassed about that fact. They kept stating that we kept "aiding" each other, as if we as individuals did n't know what we were talking about. (When your

confronted by adults who don't dig you, maybe they didn't like our looks, you may sound like you don't know anything. Oh! and yes one more thing I did not state that the Transcript did not carry articles concerning the Draft. The reporter was obviously not listening. Was she busily reading BREAKTHRU? I stated that the Transcript did not print articles really revelent to what is going on (they bury the Chicago trial, most Black Panther, and Black militant , Rap Brown, news items somewhere in the back page under tons of ads). We will try and bring items like the Draft closer to the people in the city that are affected by it.

School Board Disallows Sale Of "Breakthru" At Holyoke High

At a meeting of the School Board last night, staff members of an area publication called "Breakthru," addressed themselves to members of the High School Committee requesting sale of their publication in the High School.

Members of the "Breakthru" staff who made the appeal were Carlos Vega, Miss Theresa Fitzpatrick, and Steven Makowski, all students at Holyoke Community College. Their appeal was directed to High School Committee members John J. Stiles, Mrs. Ann H. McHugh and Michael J. McGinty.

Asked what kind of a publication "Breakthru" was, Vega responded. "Our paper is run by the three of us and two others. All it is is our opinion and views of those who contribute. There is some censorship where necessary. We take anything from anybody who is willing to contribute. It has nothing to do with the college."

Asked whether the publication was sold at HCC, Vega responded. "Not now. It will be sold through the bookstore next semester. If a teacher requests a publication, the bookstore is required to sell it."

Mrs. McHugh asked "Why do you want to sell it in the High School — to make money?"

Vega responded, "No, to make kids aware of what's going on in the city, country, in other people's minds." He was aided in his explanation by Miss Fitzpatrick. "We always have something very informative in here," she said.

School Committeeman Norman Gladu, who had been busy reading a "Breakthru," commented, "All I see here is against the American system. Is this a one-way paper or what?"

Miss Fitzpatrick responded, "These are the things kids are interested in," Makowski added. "There are things that are relative to High School kids that they are not allowed to know through the Transcript. Our purpose is to show them the law." Makowski was aided by Vega, who continued, "Articles not printed in the Transcript — like the draft, and other things

— that would interest high school students." It was obvious that Vega had not glanced at the headlines on the Transcript recently.

Communists

Mrs. McHugh asked, "If somebody wanted to communicate through "Breakthru" where would they write?" Vega answered, "To Communitas, Holyoke" Miss Fitzpatrick explained.

ed that Communitas is a resource center located in Ward 2. Stiles pointed out to the group that it was not the policy of the School Committee to allow the sale of any sort of publication within the schools.

The request was thrown to the School Committee, which voted to retain its present policy and disallow sale of the publication within the school.

REVOLUTION is the Answer to EVOLUTION

Peacefull coexistence is one of the favorite phrases the White man loves to harmonize on. Let a Black man talk about Revoultion, the President in Washington and every Senator in the house will think he is crazy. Congress will get together and say we got to give these Black people a little more, they are talking about overthrowing the goverment, they want to be boss, and you know it will drive a white man out of his mind, thinking that a Black person will be over them. Somewhere I read that Revolution means a complete change. It means the destroying of an old system. You see how silly the white man sounds talking about the Black man waging some revolution. Sure, he is comdemning the system, but he is not trying to over throw the system.

A true revolution was the overthrow of King Farouk in Egypt and the succession of President Nassar or when the Algerians threw out the French who had been there for over 100 years.

I don't especially believe in Violence, I do believe in justice. I believe if a White man is being robbed or attacked by Blacks and the law refuses to protect him, he should protect himself by any means necessary. So why is it wrong for a Black man to protect himself? It seems to me sometimes that the law and justice has turned against the Black man. If non-violence means that I must continue to let the White man bomb my church, shoot down my leaders. If it means that the law that protects the Whites refuses to protect me and excell wanton violence upon me then "yes" I am for violence. If you check your history books no where will you find that the White man demonstrated non-violence to the Indians.

White supremacists want to keep Blacks seperated and supressed, the way they do in So. Africa.

Blacks should not seek intergration because White culture is decadent and inferior to the Black culture. Blacks should not want to be intergrated, but should want to be liberated.

Rejection is the only language that the White society understands. This is the language that they have so often used on the Black Society, so apparently this is the only language that they understand.

We love the Goverment. As of yet we cannot say our our Goverment because it doesn't work for us, just as we love America but truly cannot call ourselves Americans. Black people are victims of americanism. We want our Goverment to love us and we want to be Americans. The first blood, for American Independence was shed by a Black man, Crispus Attucks.

What more does America want from its Black society. 10,000 of us fought in the Spanish American War. 3,000 fought for American Independence under George Washington. No Black Man has ever betrayed his country or attempted to assassinate a President or any official of the Goverment.

America has lynched without trials 2,867 Blacks in 31 years. Not a single murderer has suffured. Twenty thousand Black men fought for your liberty in the Civil War. When has America had Democracy but in theory, and fought for Black men? This is why I'm for total seperation on an equal basis.

The White man, in face of his boasted civilisation stands before my eyes as the demon of the world's races, a monster incarnated, in so far as the Black race is concerned. The White is a heathen, a fiend, a monstrosity befor God, and is equal to any act in the calendar of crime. I would sooner trust myself in a den of hyenas, than in the arm of Whites.

With the Courts, the laws, and officers of law in White hands, the despised Black can expect no mercy, justice, nor protection. Black men are unsafe anywhere in this country. He is the open prey at all times of barbarians who know no restrains and will not be restrained. There is but one part left to the Black when charged with a crime and is innocent. Be a law unto your self.

You are taught by senseless outrage to save yourself from torture at the hands of the blood seeking public, who has placed genocide on you.

Save your race from insult and shame. Be your own sheriff, court, and jury, if necessary like an outlaw. Die in your tracks. Dr. King's charity, humanity and advice of forgiveness, and so on, will never be reciprocated by White societies. I wish I knew how

it would feel to be free, for freely would I give my life if it would insure my children freedom. Black people at last have taken an attitude of defiance toward the White man who calls himself your friend. Ask yourself how has he manifested his friendship. By hanging you, by making you do his menial work and use his back door for jobs, refusing you employment. The only front positions the White man has ever given you - is in battle. When you return home you can't use the sidewalks--you use the roads. I see my Black brothers and sisters praying, but I don't know WHY? God must be a "White" man considering the way he treats us. No doubt there will be a "Jim Crow" law in heaven when we can get there. That's why I can't sing "Sweet Land of Liberty." I can't sing it because I know it's not true.

You who are Black, you should teach yourself to think Black. If you stop and think White for a second you are a traitor to me. It's unnatural that a man any man, should think in color. But in this everything White world, you must. THINK BLACK.

("Just because you're in this country doesn't make you an American. No, you've got to get farther than that before you can become an American. You've got yo enjoy the fruits of Americanism. You haven't enjoyed those fruits. You've enjoyed the thorns. You've enjoyed the thistles. But you have not enjoyed the fruits than the White man has, but you've enjoyed less.")

--Malcolm X
That's why I say I am not an American, but a victim of Americanism.

entirely on three students, with no supporting evidence at all. The three were supposedly faced with a libel lawsuit, made public by the principal. This was a lie, there was no libel in it, and there was no chance at all of a libel lawsuit. The principal also stated in front of the student body the school board would be present in school the next week, this was another lie, they never showed up.

Yet two school days later the same three accused students were excluded for no reason.

The school is breaking laws, denying freedom of speech guaranteed in the constitution and ruining many kids' life for no reason.

We the students must band together and stop this injustice immediately. We must show the schools we are people not shit.

Tuesday night at 7:30 p.m. at the Agawam Junior High School the three suspended students have a hearing in front of the school board.

HIGH SCHOOL STUDENTS OF THE AREA MUST STICK TOGETHER. AN INJURY TO ONE IS AN INJURY TO ALL. BE THERE, TUESDAY, FEBRUARY 10 AT 7:30 P.M. AGAWAM JUNIOR HIGH SCHOOL.

"In justifying the harsh measures taken against its enemies, the regime constantly made reference to the dangers that threatened the republic if opposition to ... was not stamped out, implying that all criticism was Communist or Communist-inspired, or at least effective aid to the Communists." The words are familiar.
 (Vietnam at war by J. Buttinger '68)

"On May 3, 1886, Chicago police fired into a crowd of strikers at the McCormick Harvester works. A protest meeting was held the next day in front of the Haymarket. Somebody threw a bomb which killed seven policemen. Michael Schwab, August Spies, and six other anarchist leaders were arrested, tried, and convicted, despite a total lack of evidence as to the murderer's identity."

(Non-Violence in America: a Documentary History by Staughton Lynd)

Seems everytime the government gets hassled the people involved get a new type of American democracy. I.E. Chicago 8 one of whom contributed to the above book. (He's a for real pacifist!) Here is History that repeats itself.

A DEMOCRATIC GOVT. ??

(On July 26 Truong Dinh Dau was sentenced to five years of hard labor for having urged formation of a coalition government in South Vietnam. The following plea for his freedom was made by Dau's daughter, Monique, 28, now in the U.S.)

"I FEEL that if I tell the American people what is happening, they will not just stand back and let the corrupt Vietnam leaders do an unjust thing. My father was a popular candidate for president on a 'peace platform' last year. He came in second. That was his only crime. He dared to speak in favor of the same kind of negotiations that have finally begun between your government and North Vietnam.

"The Leaders of South Vietnam (President Thieu and Vice President Ky) would be thrown out of power if there were peace. That's why they had my father thrown into prison. His life is in danger there because of assassins. His heart is bad, besides.

"I am doing everything I can to save my father.

But not for the sole reason that he is my father. I believe that what has happened is morally wrong and must be made right. And I'm afraid they will try to kill him because assassinations are common in Saigon, where the politicians deny liberty to the people.

"I've been working to get him out. I have con-

tacted many senators and asked their help. I

talk to people, organize meetings, travel. I ask

only this: Don't let my father suffer and die be-

cause he believed in free speech and trusted

the U.S. promise of protection."

I was rappin' with some guys about the United States position on defense. Our President is a Quaker, but he's no pacifist! In the way Mr. N. hides behind his bombs and rockets you'd think he was chicken, A.B.M. is to keep intact America's first strike attack. But, between the U.S. and the Soviets, we, together, have enough atomic weapons to wipe out 40 EARTHS! An Air Force Officer told me we had to "Keep increasing our power to be equal with our enemies, even though we'll never use it." WHAT ARE WE DOING? We have built the better dooms-day Machine and now we want to perfect it! Nixon wants peace but would you trust a man who says he wants to be your friend (you've been bitter enemies for years) and as he's talkin' to you, you see his son loading a brand new hunting rifle? would you trust him?

Mr. Nixon is about to state that he is in favor of building a new fleet of bombers to replace the B-52. (1) The replacement of ~~hand~~ bombers was dropped by Johnson because it's ~~inadequate~~ (2) Two replacement bombers were found and both were built. One, the B58, is gone out of production with only a hand full of planes to be seen. The second Billion dollar ABORTION, the E70, as it was to be called, better known as the RXB70, it was built at the cost of Billions and only one was finally fit for flight, and at this it FLEW LESS THAN HALF A DOZEN TIMES. But Mr. Nixon can't find money to help the poor, but he can make his rich friends at Boeing richer! are you just going to let him do this?

Right On!

If any of you freaks, long hairs and hip people read this paper and dig it then -- RIGHT ON!

'Cause many mis-guided brothers and sisters will reject us thinking we're nothing but a drag. Something they can't get into. They think that living inside their heads "is where it's at". They're living in a fools paradise.

They are constantly seeking something that will give them a better, "heavier", trip. They think they're FREE. But are they? Are they really FREE? or are they really fooling themselves? They have developed a self-centered attitude which is so commonly found in our world.

They believe that because they have rejected the dress code society has produced, that they are complete non-conformists. They develop their own little clicks. And won't communicate with the "straight" kids. They just can't get into that! Non-conformists? Bullshit! They are doing nothing but making their own establishment.

What will happen when they realize that the army or a factory is waiting at the end of their "thing". Will they say, "I can't get into that". Because of their passiveness of not giving a damn about the system or a way of changing it that we're presenting. They will be forced to work in a factory, or some lower position the system dictates.

The people in control of this country are happy that these kids aren't doing a damn thing to unmask them. To reveal the true machinery of this system. They need surplus labor - this is their supply.

Most kool, hip kids who don't know what is going on in this country are as much a part of the establishment as their partens. Who buys most of the materialistic goods in thei country? Who are the self-centered people who couldn't care less about their Black, Indian and Puerto Rican Brothers and Sisters.

We must come together and realize who is our enemy. Who is keeping us down? Who has been shitting on us?

The Beatles say that you got to change your head before you can begin to change the world. The Beatles talk for the MAN. 'Cause they have enough money to buy THEIR OWN ISOLATION no matter how much it costs them: Rolls Royce, mansions, jet planes celebrities, not free, just isolated. All those goods take you away from the real struggle, LIBERATION

So we say RIGHT ON! brothers and sisters. Our struggle has just begun. We have a long, hard and at times a lonely road we must travel. We must educate the uneducated. We must be a source of information for those brothers and sisters who are in need of us.

Who Is The Community?

The Research Committee of the School Committee announced that there was to be a meeting January 30, 1970 at H.B.Lawrence Jr. High School. The meeting was held in order to acquire the opinion of the public concerning the construction of a new Jr. High School at Crosier Field.

It was quite evident by the film shot at the two Jr. Highs and at the So. Chestnut School that there is a need for space.

At Lynch, the cafeteria, auditorium and library were sectioned off and used for class rooms. At Lawrence this was also true. In The attic of the So. Chestnut School there was piles of lumber. A certain fire hazard.

The dispute between the Mayor and the School committee is not that if we need a new school, but they can't agree on a price for it. The Mayor wants to spend 5 million and the School Committee want a 7 million school. They are now in a compromise state. The School Committee will try and cut the price down to a level that the Mayor will agree on.

The best part of the meeting was when the mayor spoke here are some of his remarks:
"I did not become Mayor to join a debating club"
"Don't believe everything you read in my campaign literature"
"This meeting is irrevelent, let's get down to business"
"I will not be swayed by any thing that this meeting will produce"
"This will not effect my decision"
"The School Committee and the Mayor will work something out"
the decision will come out of what "is acceptable to the Mayor and the School Committee"

Staged War

The American military command in South Vietnam are attempting to portray their failing war in ways that will deceive the American public. They are doing this in a two fold program.

1. U.S. war communiques will no longer cite the distance of a battle from Saigon because war correspondents have given wrong impressions when they indicate the closeness of a particular battle to the So. Vietnam capital. Instead, all future communiques will give the distance from the nearest big town or village.
