doctor spock

Dr. Benjamin Spock, the noted pediatrician and social dissenter, arrived on the campus of Westfield State College February 5. Scheduled to speak in the auditorium at 8, Spock consented to two informal discussion groups, before and after his speech. It was in these impromptu bull-sessions that controversial issues were discussed without the usual rhetoric applied in large gatherings. However, in order to set a basis for this report, a general understanding of Spock's comments is necessary.

On the subject of Vietnam, a strange transition overtook the countenance of this sixty-six year old peace-seeking physician. Watching his face redden with anger, I became enthralled by the enthusiasm he employed in his statements. Accusing President Johnson of betrayal, he outlined his previous support of the chief executive in his 1964 campaign, when peace and non-involvement were stressed as major campaign issues. Later, as the opposite became true, Spock began writing letters urging the President to alter his position. However, escalation continued and Spock became more militant. Using the establishment-cursed processes of picketing, sit-ins, and large demonstrations, he attempted to reach the sympathies of the American populace. Instead, he found himself arrested for his patriotism and brought to trial, itself a mockery, rivaled only by the Chicago 7 escapade that was recently finished. His attacks on militarism and the occupants of the Presidency since Kennedy were well-founded, and his objections to compromise were refreshing in a man now overcome with age. To finish off his commentary on the subject, he interjected that Nixon could not stop himself, we must stop him.

On the issue of student rights, Benjamin Spock hit an extremely sympathetic chord with his audience. Outlining the students' actions at Columbia and Harvard, he interpreted these actions as desperate attempts for academic freedom. Although he understood these actions, he urged all students to try all legal procedures for reform before extreme action was undertaken. Excitement permeated the walls of the auditorium as Dr. Spock drove home his arguments for student responsibility. The administration found little or no support from this speaker.

On the subject of national leaders, the guest speaker became pessimistic. Hardly entranced with the Republican party and its representative in the White House, Spock turned to the Democrats, again finding disillusionment. Hubert Humphrey had been disemboweled by the sharp political knife of Johnson. Ted Kennedy had suffered grave political injuries at Chappaquidnick, and other Democratic liberals had been too silent, either afraid or not totally committed. He urged the formation of a major political party on the left of the Democratic Party which would gather its strength from the strong but disorganized New Left. Its

D.C. 9 Trial

exclusive to BREAKTHRU

The trial of the D.C. Nine lasted from February 3 to February 10. They were charged with second degree burglary and two counts of property destruction from their March 22, 1969 raid on the Washington offices of the Dow Chemical Company, when they spilled human blood and destroyed office files and equipment. They sought to expose and condemn Dow's manufacture of napalm (although they have recently lost that contract, they still make polystyrene, a vital ingredient); defoliants which cause birth defects and starvation in Vietnam; Dow's past and present connections with the I.G. Farben Co.- a huge German chemical firm whose officials were tried for war crimes at Nuremberg; Dow's willingness to exploit anyone at home and abroad for profit; and Dow's pressures on legislators to manipulate policy for Dow's profit. The D.C. Nine assert the rights of people over property and profits.

The trial itself was a farce. Judge John Pratt's rulings were so restrictive that the defendants were continuously prevented from speaking to the issues. In his denial of the Nine to self-representation and his later rulings that any defendant who even mentioned Vietnam in his testimony would be jailed for contempt, it became clear that Judge Pratt's interest was only in getting the trial over as fast as possible. Other rulings forbade picketing or leafleting in front of the courthouse, excluded members of the defense committee from the courtroom, and in the latter part of the trial forced spectators to wait their turn outside the courthouse in the cold rain. Midway through the trial, two of the defendants, Rev. Bernard Meyer and Mrs. Catherine Melville, entered pleas of "no contest" to one count of property destruction, feeling that they could no longer continue with such a farce. They face ten years each.

The jury convicted the other seven of both counts of property destruction, but refused to convict them of second degree burglary, recognizing the absence of criminal intent, and instead convicted them of the lesser offense of illegal entry. Arthur Melville, Rev. Michael Dougherty, S.J., and Michael Slaski were cited for contempt for attempts to express themselves. All seven were jailed overnight after the conviction before regaining bond the next morning: an exercise of repression and pettiness on the part of Judge Pratt. One of the defense lawyers, Phillip Hirschkop, was cited for contempt and sentenced to thirty days in jail, which he is appealing. No date has been set for sentencing. Arthur Melville; Rev. Joseph O'Rourke, S.J.; Sr. Joann Malone, S.I.; Rev. Dougherty; Slaski; Rev. Robert Begin; and Rev. Dennis Moloney face twenty years. An appeal is planned—money is needed. Contributions and requests for more information (an excellent pamphlet exposing the evil guts of dow is available for 25¢) should be sent to the D.C. Nine Defense Committee, 1620 "S" St. N.W., Washington, D.C. 20009.

Governor Lester Maddox of Georgia suggested that citizens should let the air out of school bus tires or actually destroy school buses as a means of stalling desegregation.

Maddox because of this statement should be arrested for Conspiring and for trying to incite a riot.

But as we know Nixon and Mitchell would never arrest Maddox. Nixon wants the South to back him up. And by arresting one of their "leaders" this Southern backing could never be accomplished.

But the Nixon Administration brought EIGHT men to court for conspiring and crossing state lines to incite a riot. WHY? The answer is simple. These eight men want to change the American System. They want to bring peace and justice. But the Nixons know that by jailing these men and by telling the American Middle Class that these men will corrupt your children, that many of the most active members of the movement will be eliminated.

People who live in South America and Central America are Americans too. North Americans do not have exclusive rights to the name Americans.

Nixon wants the U.S Senate to ratify the UN document that will stop genocides. Does this mean that Nixon and Mitchell will stop their attacks on the Black Panther Party? Will the U.S drop its charges against the Chicago 8?

To the people of WARD 2:

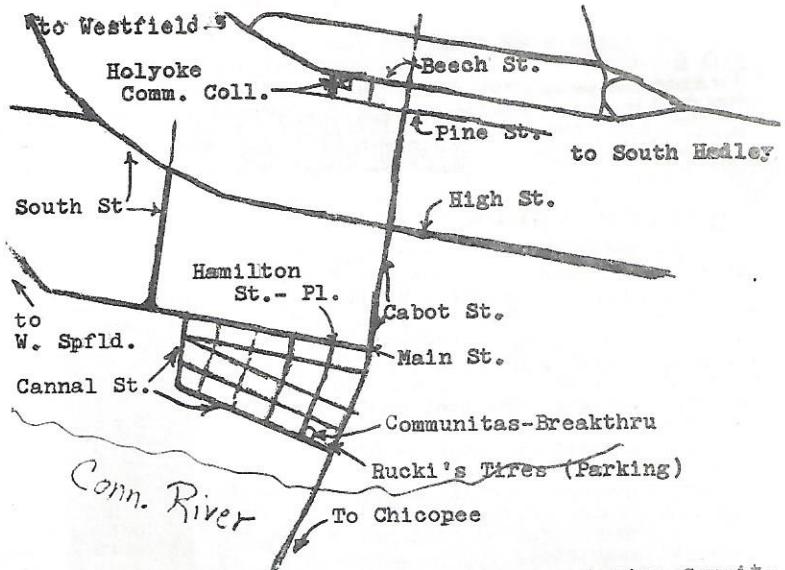

You are, under the MASTER PLAN, to be forced from your homes! Ward 2 has been selected for the site of an industrial complex, so the people of ward 2 will see a decrease in the services of the city and other agencies. Look at the schools, and the services they get; look at the "Hike for Holyoke" program and you will find that both the Model Cities Center and the Child's Park are receiving the funds instead of the "Canal Industrial area"*(better known as ward 2) which the City feels has "a high vacancy rate for rental units"*. "The City has a high proportion of older housing units which tend to have a high vacancy rate and are difficult to maintain and upgrade.* Most of the buildings of the first and second wards are over a hundred years old.

To the people of WARD 1:

have fun when the MASTER PLAN is completed, for your kids can tell you they feel cut off from the rest of the city because of the prejudiced attitudes of the upper wards. You complain that there is a lack of things to do. With the elimination of ward 2, YOU of ward 1 will be cut off from the rest of the city by the river, the industrial site, and the Central business District (CBD). So now they've boxed in the "Undesirables" (the quote is from Downey'side).

Q. Where does the Vietnam Moratorium Committee get the money to support its anti-war activities? Are they on the Communist payroll? How much does it cost them to stage their marches like the one held Nov. 15, 1969 in Washington, D.C.? —R.L., Washington, D.C.
A. The Moratorium Committee is supported by private contributions. Many citizens who backed Sen. Eugene McCarthy and Robert Kennedy in 1968, have contributed to the committee, also thousands of students. The Moratorium Committee is not on the Communist payroll. It joined with other anti-war groups in providing security, buses, toilet facilities, and microphones for more than 250,000 people who took part in the Nov. 15th march. The committee is still struggling to pay off a \$25,000 debt.

The Vietnamese war has so polarized our society that too many people nowadays call conservatives with whom they disagree "Fascists", and liberals with whom they disagree, "Communists".

Student Council Led Fight For New Code

by Holly Deni

Holyoke High finally has its long awaited dress code. We owe its success to the Student Council, who put considerable time and planning into making a code acceptable to both students and administration. In attendance at the November 5 Subcommittee Meeting of the School Board were president of the Student Council, Roy O'Hare, and vice president, Deanne Barsalou, who, along with other Student Council members and many interested students, did an excellent job of representing the student's point of view on the dress code. Mr. Moriarty, Miss Griffin, Mr. Padden, principal of Lynch Junior High, and Mr. Bower, principal of Lawrence Junior High, were also there to express their feelings on the matter. After much discussion, Mr. Stiles, Mr. Kennedy, and Mr. Welch, subcommittee members, voted to give the code a favorable

recommendation at the November 10 School Committee meeting, where it was accepted. Thanks to the Student Council, HHS now is a happier and more comfortable school.

The Humanities Program includes nine staff members from the Art, Music, Speech, English, and Social Studies departments and is coordinated by Mr. Richard LeFrancis, Chairman of the Social Studies department.

P.O.D. Reports... 1970

Feb 2

The issues currently being discussed by the parties on each side of the generation gap are the use and abuse of drugs, alcohol, and cigarettes. Questionnaires concerning these topics were distributed to junior and senior classes by Mrs. Wilson's period two class. The results of the survey were compiled and the percentages rank as follows: Of the 77% of the seniors who responded, 55% smoke. Of the juniors 87% responded, and it was found that 50% of them smoke. Of all those who smoke, 32% are heavy smokers and 39% consider themselves moderate smokers. Over 80% of the seniors and juniors have

imbibed alcoholic beverages at some time. Of these, only 7% of the seniors and 4% of the juniors are heavy users. Two thirds of the students polled have never been on drugs. However, 25% of the seniors and 18% of the juniors of that third have been users on some occasion.

The over-all reaction of those who do smoke or drink, or have taken drugs is, "I did it for kicks and for the experience."

According to Mrs. Wilson, the survey's results are very beneficial in studying the profile of student attitudes and behavior.

Reprinted above by permission of the Herald's managing editors, Sarena Kaiser and Jane Leighton, are two articles and clippings from the Holyoke High School newspaper, the Herald.

This commentary is not to criticize the concept of the Herald, just the above articles. The Herald is basically a social news sheet of local high school activities; Breakthru is a politically orientated newspaper on social movements. But in these articles the Herald deviated into the political spectrum, and did so erroneously.

"See the policeman on the street;
There's so many there to meet."

Why is the CATACOMBS now EXCLUSIVE?

For example, in "P.O.D. Reports" it was reported that 25% of the seniors at H.H.S. have tried drugs and 18% of the juniors. However, the actual figures are that 32% of the seniors have tried them and 25% of the juniors. We do not mean to quibble on a 7% difference, but when the Herald states that 2/3 of the classes polled have never tried drugs and stops, it ignores the percentages that did not answer the questionnaire, and assumes that they're non-users. The whole tone of the article reduces the problem of the drug situation in Holyoke.

In the article on the dress code the entire credit for its realization was given to this year's Student Council. Below is an article reprinted from Free Purple in issue No. IV in 1968 which should've been printed in the Herald.

On Tuesday, October 15, Free Purple editors, Richard Nadeau and Steven Blum made an appointment with Miss Fitzgerald of the main office of HHS to see principal Edward J. Moriarty in regards to the length of male students' hair. The petition was to be delivered to the principal by six senior students. These were Nadeau and Blum, Pat Wrin, Gary Kallmeyer, Michael Perry, and Marshall of the class, Frank Rozelle. In total, the petition bore the signatures of more than half the student body of HHS, nearly 1200 signatures. Along with the petition, a list of requests for changes in rules pertaining to hair and dress was presented to Moriarty, dealing with the acceptance of culottes, sideburns, and all types of pants and shirts.

Arrangements have been made for a meeting with Superintendent of Schools, Marcella R. Kelly, in order to present to her the wishes of a majority of Holyoke High students. Let us hope that these will not be disregarded.

The little bit about the Humanities course is really funny seeing how it was printed during the middle of the year when the provisions mentioned were obviously not going to be realized.

Maybe the Herald should stick to writing about football games and the word.

ON KULTURAMA INCORPORATED

Down through the ages and all the dreadful holocausts that man has unleashed upon himself, one form stands out that man has never been able to abolish — Art. Yes, even in Holyoke, there is a viable working center of art with its structural facilities located on High and Appleton Streets. Recently, from February 18-21, the people of Kulturama presented a highly professional and entertaining production of the "Sound of Music" in the Holyoke High School Auditorium. The vast complications involved in presenting such a play so successfully should show to the people of Holyoke the great potential and talent which lies within our boundaries brought out by this organization. Other activities are a Civil Choral Society, an art instruction program, art displays, and other varied incidental programs. Although these programs are few in number and are mainly taking place in one facility, the dedication and potential is there. However, in order to continue and expand these volunteer and minimum-expense programs, Kulturama is running into the old capitalistic problem of lack of funds. We urge the community to support upcoming matters related to Kulturama's financial situation, to keep alive one of the few good, constructive programs within Holyoke.

mission would be twofold; first to produce popular leaders, and second to pull the Democratic Party out of the grasp of the growing conservative camp. When queried about the participation in Politics Party, he noted it as a foundation on which to lay the framework.

Finally, the subject of revolution. With the growing polarization between factions apparent in this country, the subject emerged as an important topic. Dr. Spock, in appraising our present situation, ruled revolution as a hasty and foolish move. However, if the government ever became totalitarian and equipped itself with a strong police force, it would become necessary. Lashing out at the silent majority, he congratulated the activists of today, who realize that in order to seek a better world, you have to create one.

FOUR EXPELLED AT CATHEDRAL

An official at cathedral high School, Springfield, released the following statement the day after the meeting of all parties concerned: "The publishing of a newspaper recently circulated at Cathedral High School has been thoroughly investigated. This publication was a deliberate calculated attack on the philosophy, discipline, and educational processes to which Cathedral High has been dedicated since its founding." SO WHAT?

It appears that the officials of Cathedral High School are totally self-righteous. By the above statement (and the actions taken against the students) one can interpret positively that Cathedral High has the perfect educational system. Therefore, any criticism of said system is wholly unjust and uncalled for, RIGHT??? My, my, Utopia has finally arrived in Springfield! Parents, enroll your children at Cathedral now, for the perfect education!

America

The so Called "Democratic System" can only function by means of force. This fact has been amply demonstrated in so many areas of late that it seems ridiculous to list them. Vietnam, and the Democratic National Convention serve as the two finest examples abroad and at home that one can cite. The Vietnam story is so old that we need not repeat it. But the Chicago Convention is fresh enough in the minds of Americans to work up a little enthusiasm over. IT WAS A FRAUD. Old men are creatures of habit, they are fit to lead even older men. The spirit that once emerged under the name of DEMOCRACY no longer resides in that word, it is no longer represented by that word; that spirit is all the HATE and RESENTMENT that the word DEMOCRACY kindles. The spirit that was called DEMOCRACY is going to destroy THIS "DEMOCRACY". But it is going to take men to do it. Not OLD MEN, not cautious men, not angry men, it is going to take MEN OF CONVICTION. Had there been even one of them at the convention the whole fiasco would have turned inside out. There has never been a gathering of people seeking a real man, but not one came. There were little attempts, but little attempts produce little results. The angry mob outside had no power, they would never have required GUNS AND TANKS to make themselves heard. The angry mob inside had no guts, things just didn't get bad enough, YOU JUST CAN'T EXPECT A MAN TO RISK HIS ENTIRE CAREER JUST BECAUSE THINGS AREN'T GOING HIS WAY. No, nothing has changed. The old men still have the power, they still believe they're in the right, They will continue to maintain LAW 'N' ORDER (WHAT ABOUT JUSTICE?) Even if they have to wipe out half the world's population to do it. BUT WHO CAN BLAME THEM? THAY BELIEVE THEIR CAUSE IS RIGHT. DO YOU?

The sick American, is the gutless guy who goes around in life fakin' all the actions he can. Our friend lets good ideas be perverted by business and government. Just look at your own life; did you last Christmas raise an eye when people used the birth of a basically good man to get drunk and transfer material things? I think not, you may have used the day yourself to get HIGH. Business 'things' (I won't call them Human) think of Christmas as "2 BILLION IN NET SALES". This guy, who's birth day we celebrate was an anti-materialist, believed in brotherhood love and living for some one else than the "GOOD OLD AMERICAN SELF." So Forbes and Wallace thanked its employees in the name of God for their CHRISTIAN brotherhood in the mad Christmas rush. But they didn't say that ALL OF THE "CHRISTIANS OF TODAY ARE PAID FOR THEIR DEEDS!"

YOU are guilty of the same crime and more. Do you walk down the street and try not to look at the person coming toward you? Do you go out of your way to talk to someone other than your friends? Do you believe AMERICA IS FREE? The just step out of line once and see the pressure they bring on. Be an Individual! BUT CONFORM TO OUR STANDARD OF AN INDIVIDUAL! you are free to follow. America is free, Dave Dillenger can tell you that. He was convicted of inciting to riot when he said to the crowd in Chicago to be "Non-violent but others in this crowd have an alternative to non-violence" Because he implied there is another means other than Non-violence he was jailed. Why? If I say there is America and then of course there is Communism. Is that enough grounds to jail a person who's been a pacifist for more than thirty years? The rest were there to riot violently so they could expect to be jailed, but is JUSTICE SO ALL INCLUSIVE THAT NON-VIOLENT DEMONSTRATORS ARE JUST AS GUILTY? President John Kennedy saw the menace of the future when he said "IF WE MAKE PEACEFUL DEMONSTRATION IMPOSSIBLE, WE MAKE VIOLENCE INEVITABLE!" Wouldn't it be better for the system to either allow non-violent demonstration or to give lesser penalties to non-violent demonstrators (if you're trying to completely wipe out dissent) American JUSTICE, BA*HUMBUG!

The innocence you lost as a child is found in death

The innocence of the world was lost in creation and will be regained in destruction. You had innocence, why did you lose it? You can regain it by dying, why don't you commit suicide?

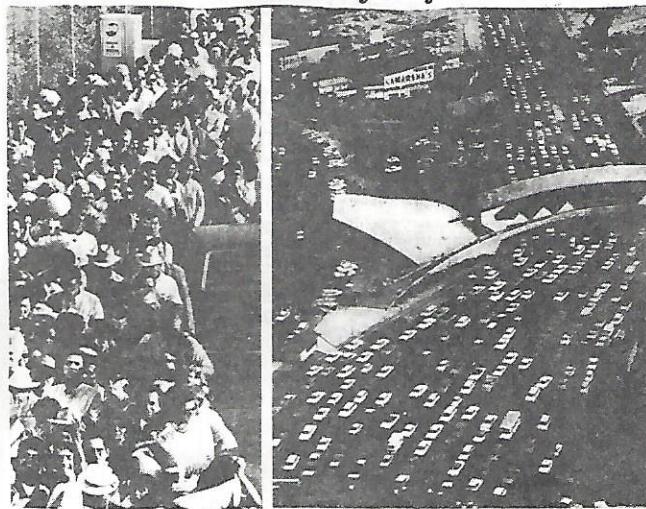

The universe was innocent before the creation of this planet. Do you think that we were created only to be destroyed?

You must die every day. That is the only way to maintain your innocence. You must be reborn every day, that is the only way to justify your existence.

It is the questions that count; the living, the uncertainty. The answer becomes the next question.

Now is the question, and now is the answer.
